International Infotech Park, C-208 & C-215, Tower No. 2, Above Vashi Railway Station, Sector 30, Vashi, Navi Mumbai, Maharashtra - 400703

- Cross Docking:
- Opportunistic
- Planned

Module 5: Outbound Process (Detailed)

- Outbound Delivery Order
- Picking Strategies:
 - FIFO / LIFO
 - Picking by Quantity
- Wave Management (Very Important)
- Packing & Staging
- Goods Issue Process
- Transportation Unit (TU) & Yard Management Basics

Module 6: Internal Warehouse Processes

- Replenishment:
- Planned / Automatic
- Physical Inventory:
- Cycle Counting
- Ad-hoc Inventory
- Stock Transfers within Warehouse
- Posting Changes

Module 7: Warehouse Task & Process Management

- Warehouse Request & Warehouse Task
- Warehouse Order Creation Rules
- Queue Management
- Resource Management (RF Framework Basics)

Module 8: Labor Management (Advanced Topic)

- Labor Activities
- Engineered Labor Standards (ELS)
- Performance Monitoring

Module 9: Monitoring & Reporting

- Warehouse Monitor (/SCWM/MON)
- Exception Handling
- Alerts & Notifications
- KPIs and Reporting

Module 10: Integration with Other Modules

- Integration with:
 - MM (Procurement)
 - SD (Sales & Distribution)
 - PP (Production Integration)
 - QM (Quality Management)
- CIF vs DRF Integration Concepts

Module 11: RF Framework & Mobile Data Entry

- RF Menu Configuration
- Mobile Picking & Putaway
- Queue & Resource Assignment

Module 12: Advanced Topics (Latest S/4HANA EWM)

- Fiori Apps in EWM
- Embedded Analytics
- Advanced Shipping & Receiving (ASR)
- Handling Unit (HU) Management
- Yard Management (Basic to Intermediate)
- Automation Integration (Conveyors, Robots – Overview)

Module 13: Customizing (Configuration)

- Storage Type Control
- Warehouse Process Type
- Putaway & Picking Strategies Config
- Delivery Document Customizing
- Number Ranges & Control Indicators
